

REMARKS

The indication of allowance of claims 20-26 is appreciated.

Process of making claim 8 has been amended to explicitly claim a method of manufacturing an integrated linear array of injection-molded light-conductive pipes of claim 20, thereby depending from and including all the limitations of allowed product claim 20. Rejoinder and allowance of such process of making claim 8, and claims 9-14, 27 and 29 dependent thereon, in accordance with MPEP 821.04(b) is accordingly respectfully requested.

In view of the foregoing amendments and remarks, reconsideration of this patent application is respectfully requested. A prompt and favorable action by the Examiner is earnestly solicited. Should the Examiner believe any remaining issues may be resolved via a telephone interview, the Examiner is encouraged to contact Applicants' representative at the number below to discuss such issues.

Respectfully submitted,
